NEW FORENSIC FACILITY LOCATED AT THE WASHINGTON HOSPITAL

WASHINGTON, PENNSYLVANIA - Washington Health System and Washington County are proud to announce the opening of our brand-new forensic facility located on the Washington Hospital campus. The facility was designed and built through a joint effort between the two organizations. Greg Caldwell, Director of Facilities for Washington Health System, served as Project Manager.

This new facility was designed to provide a user-friendly atmosphere for the collection of evidence during a suspicious death investigation, and also provides a teaching environment for observation by medical students.

Featuring a state-of-the-art autopsy station as well as a large walk-in refrigeration unit, the new forensic center will be utilized by both the Washington County Coroner's Office and The Washington Hospital.

Funding was sourced through Act 13 and Act 122 from Washington County.

A brief press conference followed by a tour of the facility will take place on Thursday, July 16th at 9:00AM within the Washington Hospital's main lobby at 155 Wilson Avenue, Washington, PA 15301. Questions can be directed to the Office of the Coroner at 724-228-6785.

RELEASED BY CORONER TIM WARCO

Member: Pennsylvania State Coroners Association
